MISSION OF THE CONNECTICUT BREAST HEALTH INITIATIVE:

The Mission of the Connecticut Breast Health Initiative, Inc. is to make a difference locally in the fight against breast cancer through education and research.

To accomplish this, CT BHI, Inc:

- Is committed to the health of the women and families in CT.
- Funds a diversified portfolio of translational research.
 - Translational Research: process of applying ideas, insights, and discoveries generated through basic scientific inquiry to the treatment or prevention of disease or injury. Its value is usually determined based on likelihood that completion of exploratory or developmental research objectives will move towards effective therapies. TR is intended to translate knowledge derived from laboratory work (basic research) into clinical applications.
- Grants considered for award are restricted solely to not for profit educational, medical or research institutions.
- Emphasizes programs that have not yet qualified for federal grants targeting cause and survival.
- Provides information on breast health and the importance of early detection.
- Is dedicated to the discovery of breast cancer prevention and quality of life research.
- No grants will be awarded exceeding \$50,000. No funds will be allocated until the full grant review is completed.

Please send applications to:
Grants Committee Chair
Connecticut Breast Health Initiative, Inc.
185 Main Street
New Britain, Connecticut 06051
